

Crochet Pattern

Bat

two colors

By QZYA

Abbreviations:

MR – magic ring;

sc – single chain;

inc – increase (2 sc from 1 st);

dec – decrease (2 sc together);

sl st – slip stitch;

dc – double crochet;

ch – chain;

Number in () at the end is a total number of st in that row.

In this pattern there is a moment of color change, it will be indicated by color, when it says "purple (purp)" or "black (blk)" it means that you need to change the color of yarn and crochet with the color indicated

Materials and tools:

Yarn Black – Vazell Baby Smail

10color (blk) 17color (purp)

Pink – YarnArt Baby 217color

14mm safety eyes

Crochet hook – 3mm

Toy filler (Hollofiber or other you prefer)

Sewing needles and scissors

Pattern is worked in spirals, do NOT join at the end of each round.

You can use other materials.

R10: 5sc dec, purp dec, blk dec 1sc (9).

Finish off. Don't stuff or shut. Leave a long thread

Wings(2 make):

Leave the thread 15-20cm for sewing and start crocheting. Start crocheting with black yarn.

Chain 17 (we will be working in rows for this part). After the turn, crochet not in the chain but in single crochet; it's crucial not to miss this moment.

R1: Starting from second chain from hook ,(16sc, ch) turn;

R2: We change the color of yarn to purple and leave a tail from the purple yarn to hide this tail to the torso. (14sc, sl st) ; ch, turn

R3: (sl st, 13 sc) ; ch , turn

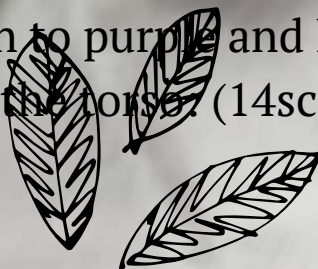

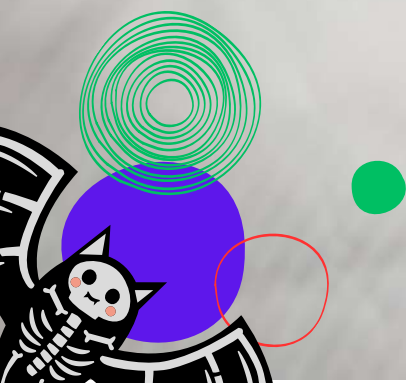

R4: (11sc, sl st) ; ch, turn

R5: (sl st, 10sc) ; ch , turn

R6: (8 sc, sl st) ; ch, turn

R7: (sl st, 7sc) ; ch turn

Now changing the yarn to black and working on the long part of the triangle to create the "feathers". In the first stitch from the hook, we crochet a single crochet (SC). Then, in the next stitch of the combination (dc, dc, dc), we crochet this combination into one stitch, and in the next stitch, we crochet a single crochet (sl st). Repeat this pattern of (dc, dc, dc) into one stitch and then a single crochet (sl st) in the next stitch until the end of the row. Tie off and weave in the ends of the longest part of the triangle, reaching the pointed part of the triangle.

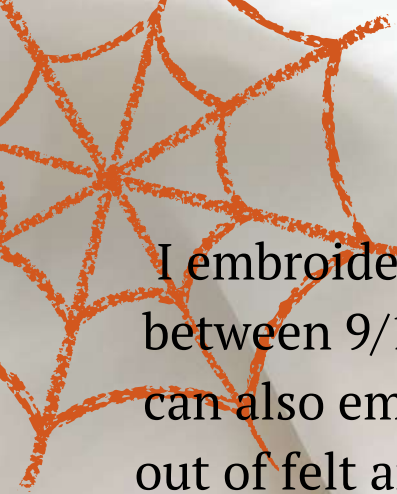

Assembly and design:

At this stage, you need to sew all the toy parts together. Sew everything as shown in the photo. I sew the ears starting from the middle of the head, 2 stitches below and to the sides. We sew the wings onto the body, below the level of the ears. (Align wings with ears on the body.) When assembling, I recommend using pins for smooth sewing.

I embroider the nose with pink yarn, which I embroider between 9/10 rows about halfway between the eyes, you can also embroider two teeth like a vampire or cut them out of felt and glue. You can also embroider or cut out of felt and sew or glue fangs, I cut them out and glued for one row under the nose at a distance of 2 sc.
